2x2 Grid

#### Benefi

This system proposed here aims at connecting the donors & the patients by an online application. By using this application, the users can either raise a request for plasma donation or requirement.

### Project Workflow:

- The user interacts with the application.
- Registers by giving the details as a donor.
- The database will have all the details and if a user posts a request then the concerned blood group donors will det notified about it.

#### What is plasma?

colored liquid portion of blood that remains after red blood cells, white blood cells, platelets and other cellular components are removed.

# Donate Plasma his is a title...

#### Problems due to plasma reduction

Reduced blood volume leads to collapsing vessels, reduced pressure, and subsequently reduced perfusion pressure.

The cardiovascular system combats low blood volume by constricting blood vessels until pressure that restores proper

#### USES:

This system is used if anyone needs a Plasma Donor. This system comprises of Admin and User where both can request for a Plasma. In this system there is something called an active user, which means the user is an Active member of the App and has recovered from Covid 19, only such people are recommended here for Plasma Donation. Both parties can Accept or Reject the request. User has to Upload a Covid Negative

## Save a Life (7)

#### Gain

It is a user-friendly application. It will help people to find plasma easily. Disadvantages It cannot auto verify user genuineness. It requires an active internet connection. Post navigation
